P-PSC 3.00 X 3.00 M

Paradis bleu Pool kits

Height: 1.50 m without coping

A PROPER IN-GROUND POOL WITH MINIMUM FUSS

Full kit FORMULA

A proper in-ground pool without the fuss? You're not dreaming, it's the **Paradis Bleu P-PSC mini-pool**. With its small 10m² footprint, it fits easily into any space. The Paradis Bleu mini-pool kit contains everything you need to build your pool and fit it out.

Paradis Bleu mini-pool gives maximum joy for minimum cost and minimum effort. **So, don't delay, make your dreams come true!**

P-PSC pools, a proper in-ground pool:

- Our P-PSC rectangular pool kits are the perfect solution for customers looking for a simple, affordable pool that is very easy to build.
- P-PSC pools are designed to be built in-ground without any great physical or financial effort.

A STABLE MATERIAL

- The panels are manufactured in series by injection of synthetic resin, a very strong, rot-proof and unalterable, recycled material.

CLEVER DESIGN

- Reinforcing ribs run the width of panels for even greater strength.
- Closely spaced supporting braces hold the panels together and ensure the rigidity of the structure.
- Aluminium hung liner locking track runs across the top of the panels further enhancing the rigidity of the structure.

MADE IN FRANCE

- Every component of your kit is made in a factory owned by a leading French manufacturer of pool and spa equipment.
- Non-degressive 10 year guarantee on the panels

PANELS AND SUPPORTING BRACES

The structure is made of injected resin panels. Rot-proof and chemically inert, they have been tried and tested for over twenty years by the leading French manufacturer of pool equipment.

- Easy to assemble, requiring very little physical effort. Light, easy to handle and store, the panels constitute the actual structure of your pool.
- The panels are 1.50m high.
- Panels made entirely of recycled materials to protect our environment.

THE FILTRATION SYSTEM

You may choose either a conventional sand filter or a Soliflow unit, very easy and quick to install.

SOLIFLOW AUTONOMOUS FILTRATION UNIT

Easy to install for reliable, efficient filtration.

- The Soliflow unit is filtration block that is fitted into the deck. It comprises a filter, a pump, 2 return fittings, an underwater light and a remote installed electrical panel to control lighting and filtration times. Delivered pre-assembled, installation is fast and easy.

P-GFI 400, 4M³/H, GREY FILTRATION GROUP

- Light grey ABS injected sand filter. Self-priming pump with pre-filter.
- Delivered with 25kg of sand.

0.75MM LINER

The liner is grey and is delivered with a polyethylene underlay, to waterproof your pool and provide a perfect finish.

ACCESSORIES

- Hole saw Ø60 with adaptor,
- PVC pressure glue, 250ml,
- PVC stripper, 500ml,
- LED underwater light panel,
- All the necessary pipework (Flexible and rigid pipes, 1/4 turn valves, elbows, threaded nipples),
- A main drain,
- A filtration electrical panel provided for kits that includes a sand filter.

A TOUCH OF ELEGANCE

Entirely in-ground and beautifully finished, the Paradis Bleu mini-pool brings a touch of elegance to your garden, enhancing any setting.
