Filtering winter safety cover for existing pools or new builds

THE AQUATEX COVER

GUARANTEE 2 YEARS COVER

The AQUATEX mesh cover provide excellent protection against accidental falls into the pool: this strong cover protects and safeguards your pool providing peace of mind all winter through.

In addition to offering peace of mind, AQUATEX covers are beautiful, exceptionally hard wearing and very easy to maintain.

The AQUATEX cover is a very strong light-weight mesh cover made of woven, reinforced PVC coated polyester.

The surface of the reinforcing band in contact with the coping is beige to prevent staining.

The AQUATEX cover's PVC coating is UV stable and is not deteriorated by chlorinated product.

The classic AQUATEX cover is fastened to the ground by means of individual straps and dynamometric springs.

Every component of this finish and fastening system is made of materials chosen for their excellent quality and efficiency. The straps are generously proportioned in terms of size and thickness. They are protected against wear and tear by reinforcing sleeves (beige in colour to prevent staining of the coping) that cover the spring and the strap and prevent contact with the ground. The springs are attached to anchor bushings strap is fastened to a stainless steel spring that is in turn attached to stainless steel or brass anchor bushings.

In addition to its remarkable strength, this fastening system ensures that tension is distributed evenly over the cover's surface so that it is held flat against the ground.

Each AQUATEX cover comes with its own storage bag.

- Reduces the risk of falls into the pool
- Retains leaves and debris
- Excellent tensile strength
- Outstanding dimensional stability
- Ideal for large pools and to protect automatic covers
